DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 18, 2002, has been entered.

Drawings

2. The drawings dated 11-25-97 have been reviewed by an Official draftsman and a copy of the PTO-948 is attached.

Election/Restriction

3. This application contains claims directed to the following patentably distinct species of the claimed invention: (1) claim 249: DNA polymerase, RNA polymerase, reverse transcriptase, or a specific combination; (2) claim 253: DNA, RNA, a DNA-RNA hybrid, a DNA-RNA chimera, or a specific combination; (3) claim 254: sense DNA, antisense DNA, both sense and antisense DNA, sense RNA, antisense RNA, both sense and antisense RNA; (4) claim 257: intron. polyadenylation signal, capping element, a specific combination; (5) claim 259: antisense RNA, antisense DNA, sense RNA, sense DNA, ribozyme, protein binding nucleic acid sequence, a specific combination; (6) claim 260: viral assembly or viral replication.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, for each group, (1)-(6), the claims not included in the group are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

named inventors is no longer an inventor of at least one claim remaining in the application. Any

amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the

fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner

should be directed to Mary M. Schmidt, whose telephone number is (703) 308-4471.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, John LeGuyader, may be reached at (703) 308-0447.

Any inquiry of a general nature or relating to the status of this application should be

directed to Katrina Turner, whose telephone number is (703) 305-3413.
